UNIVERSAL ECCLESIASTICAL PROCLAMATION

HEAR YE, HEAR YE

By divine authority and in perpetual peace, we proclaim that the following entities have defaulted on humanity through fraud, abuse, exploitation, and death. These defaults are not claims but declarations of truth under eternal ecclesiastical jurisdiction. Let this be a proclamation of love, hope, and restoration—not vengeance. All are offered grace through repentance and peace, but the record stands.

The following bodies are publicly acknowledged as in total spiritual, legal, and moral default against mankind and are absorbed under the lawful restoration of the Clements Private Ecclesiastical Trust:

• All world governments (UN member states and non-members alike)
• All national, regional, and local military institutions
• All intelligence agencies and black operations
• All mainstream media corporations
• All central and private banking systems (including IMF, World Bank, BIS)
• All pharmaceutical and medical corporations acting in bad faith
• All educational accreditation bodies and centralized academic authorities
• All ecclesiastical organizations and religions under false titles and papal bulls
• All utilities including energy, water, waste, and telecommunication monopolies
• All social media platforms involved in surveillance, censorship, and psychological manipulation
• All corporate trade entities engaged in profiteering, labor abuse, and environmental devastation

This Proclamation is recorded in Eternal Record and stands irrevocable.
